---

METHOD      **BY TIME/DATE**

DATE            **2005-07-04 MON**

TIME            **11:30:20**

EVENT          **A/M/V**

DISK NO        **01**

NO	SIZE (GB)	°C	START/END TIME
01rp	00115		2005-06-28 16:00:51
			2005-07-04 16:51:11

PRESS MENU    TO EXIT

PRESS SELECT  TO START SEARCH

Once in search menu you can navigate the fields using the following buttons:

- JOG DIAL: Changes selected field's value.
- ENTER: Advances to next field.
- DISPLAY: Goes back to last field.
- MENU: Exits search menu.
- SELECT: Starts search.

2. Using the JOG dial, choose the method you'd like to use to review surveillance based on the table below.
3. Playback the chosen surveillance history.

**Choose BY TIME/DATE if you'd like to review surveillance based on particular day and time.**

1. Using the buttons referenced above, select the date and time you want to review.
2. Press **SELECT** to begin playback.
3. When finished viewing, press **STOP** to exit playback.

**Choose BY EVENT to review a particular surveillance event, such as tailgate detection alarms.**

1. Note: An event search does not give you the option to change the "BY TIME / DATE"
2. Select event "ALARM"
3. Press **SELECT** and the event search list will appear. There are 16 events per page.
4. Navigate event search from page to page by turning the **SHUTTLE** dial clockwise to go to next page and counterclockwise to go to the last page. If you would like to jump to a specific page directly, press **SEARCH** then turn JOG dial to desired page and press **ENTER**.
5. Select event on current page by turning the **JOG** dial the selected event will be highlighted.
6. Press **ENTER** to play selected event
7. Press **Stop** to exit playback mode (Verify that the record light is still lit)
